Objective

MCA student with expertise in software development, data structures, and algorithms seeks an internship or entry-level position in software development. Proficient in Java, Python, and C++, and experienced in web development and database management, aiming to apply technical skills and contribute to innovative projects in a collaborative team setting.

Experience

- **Codezeal Technology private Limited**
Internship
Full stack webdevelopment
- **Deloitte Australia Technology Job Simulation on Forage - June 2025**
 - Completed a job simulation involving development and coding
 - Wrote a proposal for creating a dashboard

Education

- **Kalinga Institute of Industrial Technology** (2024-2026)
Master's in computer application
7 CGPA
- **Sai Nath University** (2020-2023)
Bachelor's in computer application
8 CGPA
- **Saraswati Vidya Mandir** (2018-2020)
12th
59%
- **Saraswati Vidya Mandir** (2017-2018)
10th
62%

Skills

- Core Concepts - Object-Oriented Programming, Operating Systems
- Languages - basic knowledge of C, C++, Python
- Web Technologies - HTML5, CSS3 Libraries / Frameworks / Runtimes - TailwindCSS, Django
- Databases - Sqlite, django
- Version Control - Git/Github

Projects

- **School management System**
The School Management System is a comprehensive web application designed to streamline and manage various administrative and academic tasks within a school. This system aims to enhance the efficiency of school operations by providing a user-friendly interface and robust backend support.
Technologies Used:
- HTML, CSS, JavaScript, python, django, sqlite
Key Features:
. Student Management: Manage student records, including personal details, academic performance, and attendance. 2. Teacher Management: Maintain teacher profiles, schedules, and performance evaluations. 3. Class Management: Organize classes, subjects, and timetables efficiently. 4. Attendance Tracking: Monitor and record student attendance with ease. 5. User Authentication: Secure login system for administrators, teachers, students, and parents. 6. Notifications: Send important announcements and updates to students and parents.

Objective:

The primary objective of this project is to create a seamless and efficient system that simplifies school management tasks, reduces paperwork, and enhances communication between teachers, students, and parents.
